University of Georgia, Athens, GA

Bachelor of Science, Electrical Engineering, 1991
Rensselaer Polytechnic Institute, Troy, NY
Minor: Electronic Arts
Honors: Magna Cum Laude
GPA: 3.83/4.00

Professional Experience

Georgia State University, Atlanta, GA, 2017 - present

Director of Enterprise Applications

- Responsible for 15-person staff, contractors, and vendors covering all student applications, enrollment services, and student success initiatives for the largest university in Georgia, ranked the second most innovative university in the nation by U.S. News & World Report, 2019.
- Created the Student Engagement Report by aggregating data from students' logins to campus systems and building card swipe data to improve the accuracy of attendance numbers and enable early interventions for student success. This was one of several innovations featured in the Politico article "The 'Moneyball' solution for higher education."
- Helped create the award-winning Financial Aid Packaging Status Promotion (PSP) application to quickly identify students at financial risk and provide them with timely interventions which helped contribute to a 5.6% improvement in overall year-over-year student financial readiness and a 2% reduction in summer melt.

Center Stage Education, Alpharetta, GA, 2016 - present

Co-founder

- Partnered with a social worker to create and deliver continuing education classes and keynote speeches using storytelling and music about my experience as a cancer patient to teach about clinical empathy and the patient experience.
- Featured speaker at numerous nationwide and global healthcare education conferences.

American Cancer Society - Atlanta, GA, 1997 - 2017

Various roles in multiple departments

- Increasing responsibilities to over 25 staff in product, technical, and marketing roles.
- Conceived and created a multiple award-winning mobile app to allow volunteers and staff of the organization to collect credit card and check donations and manage events on their smartphones, increasing participation, reducing costs, and raising over \$10M in revenue.
- Championed and implemented the first company-wide and award-winning intranet in our federated organization which dramatically reduced the time to share consistent information across the enterprise, helping ACS to transform structurally, operationally, and culturally.
- Implemented the first nationwide Learning Management System for ACS, providing a large collection of technical and soft skills courseware available enterprise-wide, reducing costs and providing staff the ability to improve their skills using self-directed learning.
- Helped transform cancer information delivery from a geographically dispersed and inconsistent approach to a centrally managed, high quality system including call centers, websites, content management, and automated fulfillment systems. Scaled the solution to ultimately help a million callers and 75 million people online each year.

Elekta Instruments, Inc., Atlanta, GA, 1996-1997

IT Manager

- Developed global standards for computers, email, telecom, intranet, and financial and sales software, representing our North American offices on a global team to enable better efficiencies and productivity.

Management Decisions, Inc., Norcross, GA, 1995-1996

Network Consultant

- Led a team of 10 people at Scientific Atlanta to fix failing network services by meeting with the business staff of each department, creating standardized offerings flexible enough to meet individual department needs, then systematically applying it to the whole campus.

Exxon Chemical Company, Linden, NJ, 1991-1994

Systems Analyst

- Partnered with the telecommunications lead to propose a network improvement plan, acquire funding, and ultimately implement the solution, reducing bottlenecks and improving performance.

Publications
